

Fuel Manager Filter/Water Separator Element Cross Reference Guide

Unless otherwise specified, the filter elements listed herein are to be considered as FM100 filter/water separators, normal flow direction, on/off highway use with traditional retention design. Other element types/features (e.g. Reverse Flow, Marine use, elements with the Enhanced Retention System (ERS), FM10 and FM1000) are identified in the description column.

For additional information reference Fuel Manager Brochure (99889), FM100 Assembly Information Chart (99881), Fuel Manager Filtration Systems Parts List (99200B) and the Fuel Manager Users Guide (99795).
